DETAILED ACTION

Response to Arguments

Applicant's amendments filed May 24, 2010 have been reviewed and considered. Claims 1-7, 9, and 10 are currently pending of which Claims 5 and 10 have been withdrawn and Claim 1 was amended. Applicant's arguments are moot in view of the new grounds of rejection.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. **Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Kostelac (USPN 6,108,817).**

Regarding Claim 1, Kostelac discloses a hand-utility interface for use in protecting a user's hand during utility tasks comprising a foamed block body (1, Col. 2, lines 8-14) having a plurality of foam finger-receiving channels defined therein (7); and palm support means for securing said interface to the palm of a user's hand with the underside of the user's hand retained against the foamed block body (Fig. 3), the palm support means comprising one or more resilient yokes (4), wherein the foam finger-

receiving channels snugly receive the fingers of said user's hand such that in use, the palm support means and the foam finger-receiving channels secure the interface to the user's hand (Fig. 3; Col. 2, lines 20-27). It should be noted that applicant has not required that the yoke extend outwardly from the palm support means and be inserted between adjacent fingers.

Regarding Claim 2, Kostelac discloses wherein body defines a uniform work surface (Fig. 1).

Regarding Claim 3, Kostelac discloses wherein the foamed block body comprises viscoelastic foam material (Col. 2, lines 8-14, where polyurethane can be a viscoelastic foam).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. **Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kostelac (USPN 6,108,817).**

Kostelac discloses the invention substantially as claimed above. Kostelac does not disclose wherein the foamed block body is symmetric in form such as to be suitable for ambidextrous use. It is well known in the art to make hand devices symmetrical in order to allow the wearer to wear the device on either hand.

Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to have made the device of Kostelac symmetrical, in order to allow the wearer to wear the device on either hand.

Allowable Subject Matter

5. Claims 4, 6, and 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
